

SESSION D

- MINDING FUTURE DIVESTMENT

Fossil fuel divestment is becoming a well-known concept on the green arena, removing assets from companies involved in the fossil fuel industry and re-investing in the bioeconomy or in green businesses in general. But what is divestment? Is this a minor trend or a major shift that might shape our future? Participants will discuss this trend and investigate recent examples that might lead the way.

Among participants:

- Hallstein Havåg
Head of science and projects, Bellona Foundation, Norway
- Annie Bersagel
Advisor in responsible investments at KLP Kapitalforvaltning AS

Facilitator Ms. Þóra Arnórsdóttir
